

College Bowl Match

(Emory University Questions (David Henry). 1983 N.I.T.)

1. The name's the same: a candy bar...Reagan's second National Security Advisor...the author of The Ox-Bow Incident... and two Attorneys General of the U.S. For 10 points, what's the name?

Answer: Clark (Walter Van Tilburg Clark wrote Ox-Bow; Ramsay and Tom Clark are Attorney Generals).

2. It's a department (Day part mon) of France--and over 3,000 miles from Paris. It's the largest of the Windward Islands, with its capital at, appropriately enough, Fort-de-France. For 10 points, what island is it?

Answer: Martinique

3. "He's had a lot of luck today. He's finagled an extra bowl of mush at noon. The boss had gotten them good rates for their work. ... Caesar had paid him off in the evening. He'd bought some tobacco. And he'd gotten over that sickness. Nothing had spoiled the day and it had been almost happy. There were three thousand six hundred and fifty-three days like this in his sentence, from reveille to lights out." For 10 points, this is one day in the life of what Aleksandr Solzhenitsyn character?

Answer: Ivan Denisovich

4. Politics is sometimes called the "art of the possible." The first man who called it this was a European statesman who, when he came to power in 1862, disregarded the constitution, dissolved the Parliament, and collected taxes for the army. For 10 points, name this man who also said, "Politics is not an exact science."

Answer: Otto von Bismarck

5. The story of Faust has been a popular subject for poems, plays, and operas. For example--and for 10 points--who composed the 1846 opera The Damnation of Faust?

Answer: Hector Berlioz

6. This painting was suggested by Giorgione's Pastoral Symphony and by bathers at Argenteuil (Are jen twee), and was first exhibited in 1863, to great protest over the sight of two fully dressed men lounging outdoors with a naked woman. For 10 points, name this painting.

Answer: Luncheon on the Grass or Picnic on the Grass  
or Dejeuner sur l'Herbe

7. "On a journey neither enter a temple nor worship at all. Do not wear a ring. When you rise from bed, roll the bed clothes together and smooth out the place where you lay." The author of these words was a religious leader, philosopher, and mathematician of 6th century B.C. Greece. For 10 points, name him.

Answer: Pythagoras

Emory

8. There are about twenty European and North American species of this fish, which can weigh more than a ton. Unlike most fish, they have taste buds; ironically, some folks find their eggs especially tasty. For 10 points, name the fish that gives us the better grades of caviar.

Answer: sturgeon (if they say "Beluga," ask them to be more general)

9. He identified numerous muscles for the first time, discovered that arteries carry blood, not air, and showed the importance of the spinal cord. He was court physician to Marcus Aurelius, and the medical authority until the 16th century. For 10 points, name this famous physician.

Answer: Galen

10. In 1877, pursued by the United States army, this Indian tribe made a daring and skillful retreat of over a thousand miles in an attempt to reach the Canadian border, led by their great chief Joseph. For 10 points, what Northwestern Indians are they?

Answer: Nez Percé (at least 3 possible pronunciations)
