Subject: This is an audio round of song clips, wherein the song titles all mention a specific American location. Each location will be used only once, but be aware that, for instance, a song called “Iowa” and a song called “Des Moines” are two different locations; using a state once does not eliminate all of the cities in that state. You get 10 points for the title, **which you must have**, and an additional 5 points for the artist. If either part is wrong, it’s a neg 5. The round is 55 audio clips in length.
