\Shostakovich\

c. La Sacre du printemps
\Stravinsky\

6. (20 pts) In the 5th century, Vortigern, a British chieftain, mistakenly invited some Germans over to England to help him put down a revolt. The Germans, of course, eventually took over the kingdom. For 10 points apiece, give me the names of the two

brothers who led the Germans.

\Hengist Horsa\

7. (25 pts) Pen and paper needed. A ball on the end of a string whirls in a circle at 60 centimeters per second. The radius of the circle is 30 centimeters. For 25 points, what is the period of rotation of the ball?

\pi seconds or 3.14 seconds (or any other value of pi) ($T = 2 \pi R \text{ over } v = 2 \pi (30/60) = \pi$)\

8. (20 pts) For 10 points apiece, identify these towns connected with the life of Jesus.

a. Name the small town in Galilee where Jesus attended a wedding and turned the water into wine.

\Cana\

b. Name the Judean town near Jerusalem where Jesus raised Lazarus from the dead.

\Bethany\ OWT (25 pts) Winston Churchill wrote a history of the second world war in 8 volumes. FFP each, give the titles of those 8 volumes.

\The Grand Alliance The Hinge of Fate Their Finest Hour Triumph and Tragedy The Gathering Storm\ *Closing the Ring*

9. (30 pts) Since 1900 eight men have been Chief Justice of the U.S. Supreme Court. You no doubt know Warren Burger and Earl Warren. For 5 points each, name the other six.

\Vinson Stone Hughes Taft White Fuller\

10. (20 pts) One of the most influential American sociologists, he was born in Waco, Texas in 1916. His most famous works are White Collar and The Power Elite, both criticizing contemporary American mores. For 20 points, who was he?

\C. Wright Mills\

11. (20 pts) Name the actor who played these characters in these classic movies for 5 points apiece:

a. Longfellow Deeds in Mr. Deeds Goes to Town

\Gary Cooper\

b. Jefferson Smith in Mr. Smith Goes to Washington

\James Stewart\

c. John J. MacReedy in Bad Day at Black Rock

\Spencer Tracy\

d. Capt. Kirby York in Fort Apache

\John Wayne\

12. (25 pts) The play is set in a mental home, where 3 apparent lunatics who claim to be Newton, Einstein, and the spokesman of King Solomon meet. Actually, the third man is a brilliant scientist who has taken refuge in the sanatorium from the terrible power of his own discoveries. For 25 points, give me the title of this powerful play by Friedrich Durrenmatt.

\The Physicists\

13. (20 pts) By ceaseless plotting, and several messy murders,

probably including that of her third husband, the Emperor Claudius, she managed to place her son, Nero upon the throne. Not being a complete fool, Nero soon had her murdered in 59 AD. For 20 points, who was she?

\Julia Agrippina; Agrippina Minor or Agrippina the Younger (to distinguish her from her mother who was equally nasty)\

14. (20 pts) Physicists measure the luminosity of an object in watts.

a. Astronomers, for historical reasons, use what term for luminosity, for 5 points?

\magnitude\

b. What specific term do astronomers use to refer to the brightness of a celestial object as measured from the Earth, FFP?

\apparent magnitude or apparent brightness\

c. FTP, what term is used by astronomers for measurement of radiation of all wave lengths, not just the visual, of a star?

\bolometric magnitude\

15. (25 pts) He was a legendary early king of Athens, who was later worshiped on the Acropolis with Athena and Poseidon. A temple on the north side of the Acropolis is named for him and contains the famed Porch of the Maidens. For 25 points, name him.

\Erechtheus (the temple is the Erechtheum)\

16. (25 pts) This early British polar explorer who located the North magnetic pole in 1831 also led expeditions to the Antarctica and discovered and named Victoria Land. Many areas of the Antarctic are named for him. Name this man who died in 1862.

\James Clark Ross\

17. (20 pts) He said that "War is the father of all, the king of all." By this he meant that the universe is composed of opposites (wet-dry, hot-cold, etc.) and that war between them creates and defines everything. For 20 points, name this Greek philosopher of the 5th century BC.

\Heraclitus\

18. (20 pts) Who painted these pictures for 5 points each?

a. The Garden of Earthly Delights

\Hieronymus Bosch\

b. The Hay-Wain

\John Constable\

c. Primavera

\Botticelli\

d. Avenue at Middelharnis

\Hobbema\
