In case you still need it- here is the packet we promised you some time ago for the Harmonic Convergence Bowl.

Two corrections to make: first, in the Mary Stuart bonus, take out the reference to this being the second question of the packet about her. I decided at the last minute that repetition is a bad thing, and so the original question that the bonus refers to is gone.

Also, the baseball bonus is slightly wrong. There have been eleven back-to-back MVPs, not ten. (I forgot Roger Maris). Obviously, Maris should now be acceptable for the first part of the bonus, but you should probably also re-word the introduction.

And finally, sorry for the uneven line breaks here.

Good luck with the tournament.
